No.6/15/2021-TP

Imphal, the 21st October, 2021

CORRIGENDUM

Subject: Corrigendum to the Request for Proposal (2nd Invitation) issued vide No. 6/15/2021-TP dated 04.10.2021 for Selection of Consultant for conducting Topographic survey in Imphal, Manipur

In response to the pre-bid queries on the RFP for Selection of a Survey Consultant for conducting Topographical survey for formulation of LAP and TPS for identified sites at Imphal, Manipur invited vide RFP (2nd) invitation (e-tender) No. 6/15/2021-TP dated 04.10.2021, the response to the queries are as below :-

No.	RFP Reference	Existing Clause in the RFP	Query from Bidders	Response/Decision
1	Data Sheet (8)	Last date and time of Submission of hard copy documents: Up to 1:00 P.M. on or before 29.10.2021	Considering the delivery process time and limited service availability in this region, we request you to extend the last date of paper copy submission by 14 days after issuing the response to queries.	Shall remain as in RFP
2	Section 4. Scope of Work "Note"	The applicant shall survey beyond the LAP/TPS for at least one plot deep or 50 m whichever is more.	We request you to limit survey beyond TPS and LAP boundary to the 1 or 2 structure or property and extend roads to 50 mt.	Shall remain as in RFP
3	Section 4 (a) Topographical Survey	The Applicant shall conduct Topographic survey using a hybrid method where Total station/ DGPS/Auto Levels equipment will be used to be carry out Town planning Scheme (TPS) Site survey and Total station/ Drone/DGPS/Auto Levels will be used to carry out Local Area Plan (LAP) Site survey.	As per our understanding, Drone survey is not mandatory for preparation of plans, if consultants can cover 100% ground survey by DGPS/ Total Station/ Auto Level then Drone Survey is required or not?	The drone imagery is not required unless the surveyor is able to generate topographical survey and Built record survey of high accuracy through other surveying methods like the DGPS etc. If required the Consultant shall provide Drone imagery with an ability to have orthogonal aerial images at 0.5 m resolution from an altitude not exceeding 150 m
